VYSHNAV P S

Data Analyst | Power BI · SQL · Python · Excel

Kozhikode, Kerala | +91 97454 52689 | vyshnavps07@gmail.com | LinkedIn| GitHub

PROFESSIONAL SUMMARY

Data Analyst with an M.Sc. in Disaster Management and a B.Sc. in Mathematics, skilled in SQL, Python, Power BI, and Excel. Experienced in validating multi-agency data and building dashboards and reports for government, humanitarian, and corporate stakeholders. Strong in hypothesis testing, A/B testing, and regression.

TECHNICAL SKILLS

Programming & Databases: Python (Pandas, NumPy, SciPy, Statsmodels, Scikit-learn), SQL (T-SQL, CTEs, Joins, Views), SQL Server, MySQL, Google BigQuery
BI & Visualization: Power BI (DAX), Tableau, Excel (Power Query, Power Pivot, VBA, Pivot Tables), Matplotlib, Seaborn
Analytics: Exploratory Data Analysis, Hypothesis Testing, A/B Testing, Regression, KPI Design, Data Cleaning, Data Validation, Dashboards, Reporting
GIS (Secondary): QGIS, ArcGIS, Google Earth Engine

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Data GUC (Remote, UAE) Jun 2026 – Present

- Built a Power BI dashboard on workforce cost, attrition (by role, tenure, location, performance), safety incidents, and performance-reward alignment for HR; wrote an insight summary with recommendations per problem area.
- Built an Excel construction-sales dashboard using Power Query, Power Pivot with DAX, slicers, and what-if analysis, with a VBA-enabled refresh and executive summary sheet.

Technical Expert | District Disaster Management Authority, Pathanamthitta Nov 2025 – Jan 2026

- Consolidated and validated operational data from multiple departments into structured situation reports for district leadership during time-sensitive emergency operations.
- Tracked incident and resource data in real time, coordinating with administration, health, and emergency departments to keep reporting accurate.

Research Intern | Sphere India (Remote, Delhi) Oct 2025 – Mar 2026

- Collected, validated, and analyzed datasets from multiple agencies; produced analytical reports and technical documentation for stakeholders.
- Contributed to revising the national Handbook of Multi-Sector Coordination for Emergency Response in India, standardizing information-management and reporting processes.

Program Support Intern | Palladium Consulting India (Govt. of Maharashtra), Mumbai Jun 2025 – Sep 2025

- Analyzed multi-source government datasets to support planning decisions; built dashboards and reports for state-level stakeholders.
- Performed data quality assurance and validation across large multi-agency datasets to keep downstream reporting accurate.

PROJECTS (SELF-DIRECTED, PUBLIC DATASETS)

Ad Spend Optimization: Facebook vs. Google Ads | *Python, SciPy, Statsmodels, Scikit-learn* GitHub

- Ran statistical hypothesis testing (Welch's t-test) on live campaign data, finding Facebook drove **2x higher conversions** than AdWords ($p < 0.05$), and recommended budget reallocation.
- Built a regression model showing clicks were a weak predictor of conversions (R^2 –0.04), recommending a shift to CPA-based KPI tracking with findings summarized in a stakeholder memo.

E-Commerce Analytics: Modern Data Stack Pipeline | *Python, SQL, Google BigQuery, Tableau* GitHub

- Architected an automated end-to-end ELT pipeline extracting live product data via API into Google BigQuery, unifying siloed sales and marketing data for analysis.
- Surfaced category-level ROAS via a live Tableau dashboard, uncovering a **374x ROAS in Jewelry vs. 21x in Women's Clothing** despite higher ad spend, flagging a budget reallocation opportunity.

Geospatial Supply Chain Optimization | *Python, Pandas, Scikit-learn, Folium, GeoPandas* GitHub

- Analyzed 100,000+ e-commerce logistics records to identify spatial delivery bottlenecks, quantifying **$202K in localized financial loss** tied to a 7.9% delivery failure rate.
- Built financial-loss-weighted heatmaps and applied K-Means clustering to identify 3 optimal distribution hub locations, informing a data-backed facility investment recommendation.

EDUCATION & CERTIFICATIONS

EDUCATION

M.Sc. Disaster Management | Pondicherry University 2023 – 2025

B.Sc. Mathematics | University of Calicut 2019 – 2022

CERTIFICATIONS

Python for Data Science (Coursera) | Remote Sensing and GIS (IIRS) | GIS for Climate Action (Esri)
